

Leadership Exploration Journeys[®]

By the Transformational Leadership Acceleration Institute

Join our Leadership Exploration Journeys[®] and learn from leaders all around the world.

- Comprehensive, advanced leadership development suite designed to build and shape leaders for the modern workplace, in a world of uncertainty, unpredictability and exponential digital change.
- Our Leadership Exploration Journeys[®] are formed at the cutting edge of the best modern leadership practices, research and thinking.
- The leadership learning and discovery sessions will be applied directly to leadership challenges strategically and operationally back in the workplace.
- The program of learning, exploration and discovery is updated every year through the latest research, industry case studies and our network of global leaders feeding back to us in real time.

One to Five-Day Leadership Exploration Journeys[®] in the fastest moving markets in the world, with experts, leaders and innovators from inside and outside of the relevant industry, in discussion with our groups.

The focus is firmly on shifting the leadership question from 'What?' to 'How to' implement and accelerate success.

These exploration days include:

Visits to organizations, institutions and leaders modelling new transformational best practices.

Focused around digital, workforce and leadership transformation practices, case studies and data.

Guest CEOs, Board Officers, Future Leaders, experts and gurus for a series of fireside chats, panel discussions and one-off presentations + Q&A.

Collaboration with higher education and business schools changing the shape of learning for greater work-readiness, through knowledge and skills building for a digital world.

Featuring a mix of new breed, legacy and Founder-centered business experiences.

With coaches on hand to secure key messages from the visits and interactions.

Consolidation and learning input sessions to relate back to specific strategic and operational workplace leadership challenges.
